- Don't need a policy to do this.
- Don't need the gov. to help us.
- Format? What will it look like? Watershed Assessment.
- How do we go across boundaries to help another agency.
- Will it be possible to share data & databases. Resources/time
- State Perspective (SC): We already do this.
- If no federal lands, will it be watershed looked at? No. not to assess. Others will do this.
- Clarification of language with respect to intent is needed.
- Pts. of contact for each Agency responsible for the implementation of this policy. Regional/State need to be identified

Interject fiscal realism

- Room / flexibility for Regions to customize.
- 5 yrs. or more to "institutionalize."
- % ownership (federal) should not drive priorities.
- Outreach to State Env. Agencies needs to be far improved for implementation plan.
