100⁺ Years of Partnerships for Water

For more than 100 years, the U.S. Geological Survey has been developing partnerships with Federal, State, and local agencies to monitor and manage the water resources of Mississippi.

In celebration of National Water Monitoring Day and in commemoration of the 30th anniversary of the Clean Water Act, the USGS would like to recognize and thank the following agencies for their efforts to monitor, protect, and manage Mississippi's water resources in partnership with the USGS:

Mississippi Department of Environmental Quality
Mississippi Department of Transportation
Mississippi National Guard
Mississippi Department of Marine Resources
Mississippi Department of Agriculture and Commerce
Mississippi Department of Health
Mississippi Emergency Management Agency
Mississippi Water Resources Research Institute
Pat Harrison Waterway District
Pearl River Basin Development District
Pearl River Valley Water Supply District
Yazoo Mississippi Delta Joint Water Management District
Harrison County
Jackson County
City of Jackson
U.S. Army Corps of Engineers
U.S. Fish and Wildlife Service
U.S. Forest Service
USDA, Natural Resources Conservation Service
Bureau of Land Management
National Weather Service

October 18, 2002, is the 30th anniversary of the Clean Water Act - a milestone in our Nation's efforts to protect our water resources. As part of the "Year of Clean Water" celebrations, the Mississippi District of the U.S. Geological Survey is participating in National Water Monitoring Day by hosting an open house event from 10:30 a.m. - 1:30 p.m. Visitors will view posters and displays of the water resources activities of the USGS and other Federal, State, and local agencies in addition to the following demonstrations:

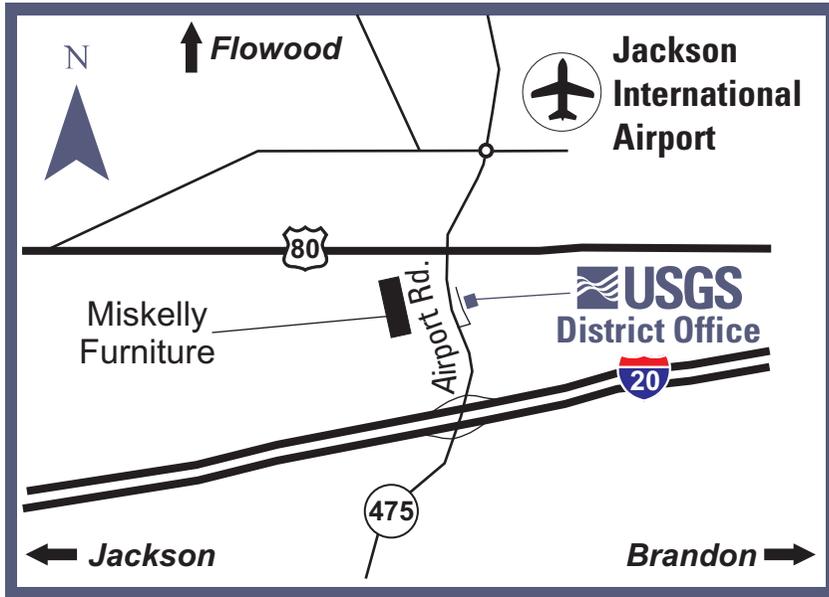

- Mobile water-quality labs
- Coastal and large-river sampling boat
- Acoustic Doppler current profiler
- Small-river sampling boat
- Fish-shocking boat
- Surface-water monitoring truck
- Portable drilling rig
- Monitoring and sampling instrumentation
- Ground-water enviroscape

Visiting school groups will participate in a Water Jeopardy competition and other hands-on learning activities. A complimentary hot dog lunch will be provided.

Checking the health of the Nation's rivers. Measuring flow from a bridge near a USGS streamgage.
