Part 2

ARPA MESSAGE HEADER

Part 3

Here are my comments:

1. The use of small local business concerns for technical help should be maximized at no less than 90% of all work.
2. Funding for any work associated with this effort should be injected at the lowest level i.e. local government and private owners.
3. Any negative impact on local government and private owners should be minimized and federal funding should be provided to implement corrections to the problem.

Sincerely,

Steven W. Brown  
Balar Associates, Inc.
