Part 3

As a landowner and an operator of a family farm who has land that is within a watershed of a federal wildlife refuge, the proposed Unified Federal Policy for a Watershed Approach to Federal Land and Resource Management is of great concern to me.

While I agree with the need to have water quality, I hope that private property rights are not infringed upon to reach an unrealistic goal. I also hope that private landowners will be included at the beginning of any discussion when their land is included in an affected watershed.

Signed,

Dale Tinjum
