

## PREFACE

This volume of the annual Washington hydrologic data report is one of a series of annual reports that document hydrologic data gathered from the U.S. Geological Survey's surface- and ground-water data-collection networks in each State, Puerto Rico, and the Trust Territories. These records of streamflow, ground-water levels, and quality of water provide the hydrologic information needed by State, local, and Federal agencies, and the private sector for developing and managing our Nation's land and water resources.

The report is the culmination of a concerted effort by dedicated personnel of the U.S. Geological Survey who collected, compiled, analyzed, verified, and organized the data, and who edited and assembled the reports. In addition to the authors, who had primary responsibility for assuring that the information contained herein is accurate, complete, and adheres to Geological Survey policy and established guidelines, the following individuals contributed significantly to the collection, processing, and tabulation of the data:

Rodger M. Adkins	Johnna L. Higgins	Gregory J. Perry
Douglas G. Call	John E. Jern	Ralph E. Quistorff, Jr.
Jay W. Chennault	Gregory B. Justin	Andrew W. Records
Ronald P. Collins	Dennis J. Kent	Dennis R. Saunders
Dwight D. Copeland	Richard L. Kittelson	Galen J. Schuster
Christopher A. Curran	Christopher P. Konrad	F. William Simonds
Douglas O. Cushman	C. G. Laird	Brett A. Smith
John E. Dick	Peter H. Laird	Kurt R. Spicer
Brian W. Drost	William G. Landrum	Winston C. Stokes
Robert E. Drzymkowski	Kevin R. Linn	William A. Taylor
James C. Ebbert	Thomas E. McKenna	Evan D. Templeton
David M. Ely	Laura M. Medsker	James C. Tilque
Sandra S. Embrey	Darrin A. Miller	Ann Vanderpool-Kimura
Ken E. Frasl	Greg W. Olsen	Richard J. Wagner
Joseph C. Gilbert	Jeanette F. O'Neil	Mark L. Weitz
Thomas W. Hale	Karen L. Payne	Shawn G. Welch

This report was prepared in cooperation with the State of Washington and with other agencies under the general supervision of Robert A. Kimbrough, Assistant Director for Hydrologic Data, Cynthia Barton, Director, Washington Water Science Center, and William T. Sexton, Regional Executive for Water, Western Region, USGS.
