DISCONTINUED SURFACE-WATER QUALITY STATIONS

The following continuous-record surface-water water-quality stations (gaging stations) in Washington have been discontinued. Period of record for daily water-quality records collected and published as daily means, or monthly means for some periods, for the period of record, expressed in water years, are shown for each station. Information and data regarding any station may be obtained from the District Office at the address given on the back side of the title page of this report.

[Type of record: do (dissolved oxygen), ph (pH), sc (specific conductance), sed (sediment), t (temperature)]

	Station	Drainage area	Type of	Period of
