As recommended by the State Water Resources Research Institute Evaluation Panel, the WV WRRRI is developing the following information transfer program.

· Update the WV WRRRI Website to include:

Overview of WV water resources issues,

Road map of organizations, agencies  
involved in addressing the problems,

Summaries of research projects over the past  
10 years,

WV water resources research priorities,

Links to useful sites such as USGS stream  
flow data,

Announcements for RFPs, workshops, etc.

- Develop a newsletter
- Over the next year try to organize the numerous water related meetings, workshops etc into a single WV Water Conference under WV WRRI management.
