

SPARROW Model Estimates of Phosphorus Delivered to Streams and Coastal Areas in the Cape Fear Estuary, Long Bay and New River Estuary

Which areas contribute the largest amounts of total phosphorus annually:
to local streams?

to the Cape Fear Estuary, Long Bay
and New River Estuary?

What sources contribute the largest amounts of total phosphorus annually to the Cape Fear Estuary, Long Bay and New River Estuary?

(Note: Wastewater Discharge estimates include inputs to stream and shoreline reaches, not direct inputs to Estuary/Bays)
