

SPARROW Model Estimates of Phosphorus Delivered to Streams and Coastal Areas in the Savannah River Estuary and Port Royal, Ossabaw, St. Catherines, and Sapelo Sounds

Which areas contribute the largest amounts of total phosphorus annually:
to local streams?

to the Savannah River Estuary and Port Royal,
Ossabaw, St. Catherines, and Sapelo Sounds?

What sources contribute the largest amounts of total phosphorus annually to the Savannah River Estuary and Port Royal, Ossabaw, St. Catherines, and Sapelo Sounds?

(Note: Wastewater Discharge estimates include inputs to stream and shoreline reaches, not direct inputs to Estuary/Sounds)
