

SPARROW Model Estimates of Phosphorus Delivered to Streams and Coastal Areas in the Suwannee River Estuary, Waccasassa, Apalachee, and Ocholockonee Bays

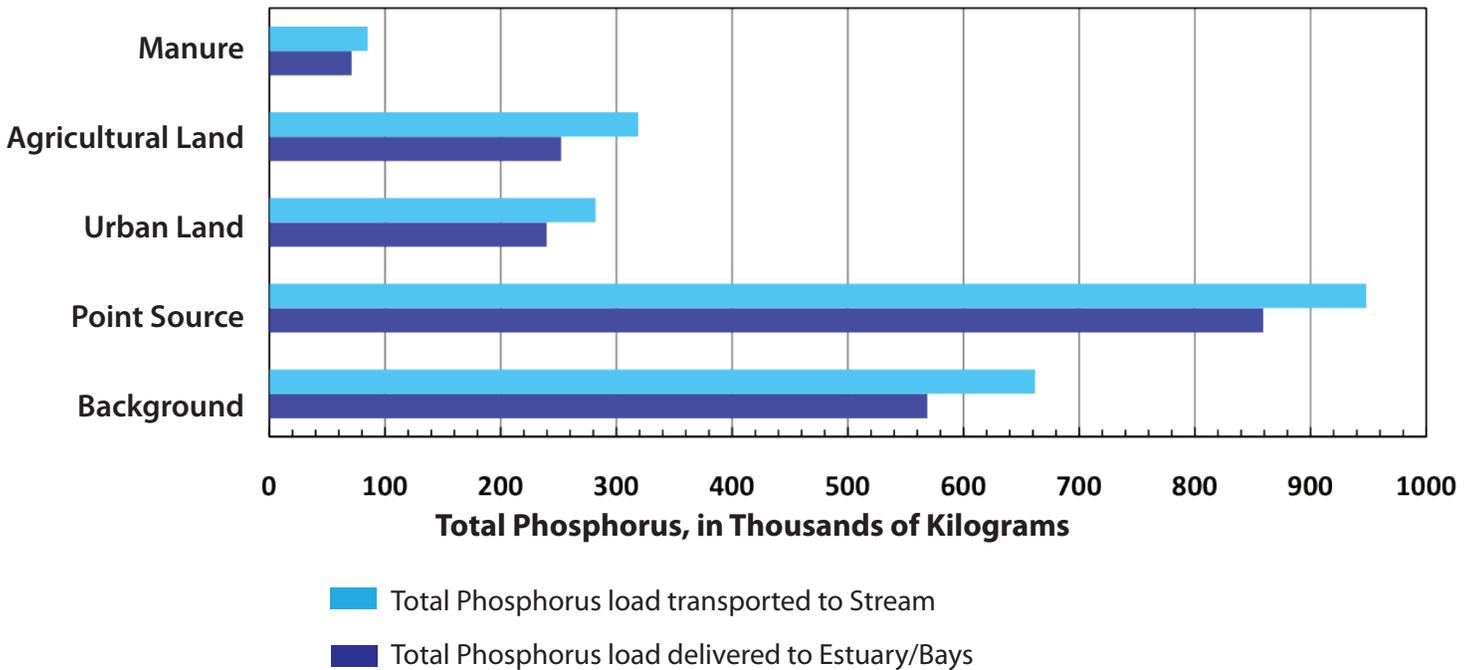

Which areas contribute the largest amounts of total phosphorus annually:
to local streams?

to the Suwannee River Estuary, Waccasassa, Apalachee, and Ocholockonee Bays?

What sources contribute the largest amounts of total phosphorus annually to the Suwannee River Estuary, Waccasassa, Apalachee, and Ocholockonee Bays?

(Note: Wastewater Discharge estimates include inputs to stream and shoreline reaches, not direct inputs to Estuary/Bays)
