

SPARROW Model Estimates of Phosphorus Delivered to Streams and Coastal Areas in Outlet of the Tennessee River Basin

Which areas contribute the largest amounts of total phosphorus annually:
to local streams? to Outlet of the Tennessee River Basin?

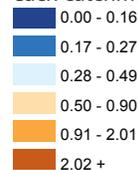

TP yield transported to stream from each catchment, in kg/ha*

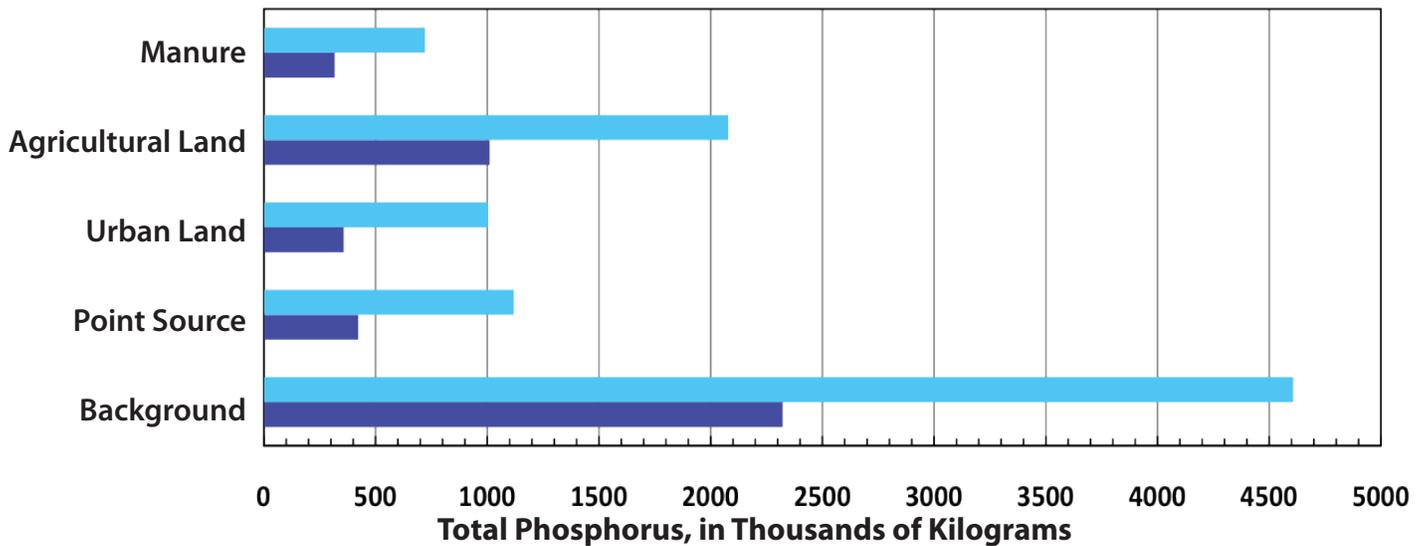

● Location of monitoring site with phosphorous load estimate, 2002

TP yield transported to the Outlet from each catchment, in kg/ha*

What sources contribute the largest amounts of total phosphorus annually to Outlet of the Tennessee River Basin?

■ Total Phosphorus load transported to Stream
■ Total Phosphorus load delivered to Outlet

(Note: Wastewater Discharge estimates include inputs to stream and shoreline reaches, not direct inputs to Outlet)
