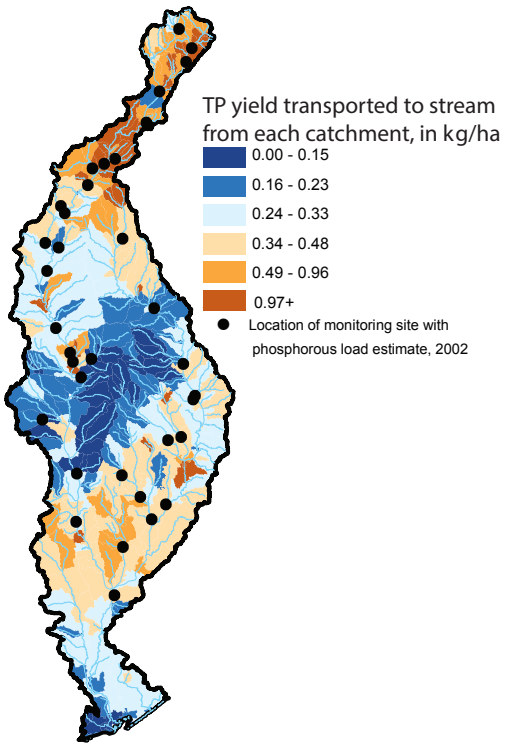
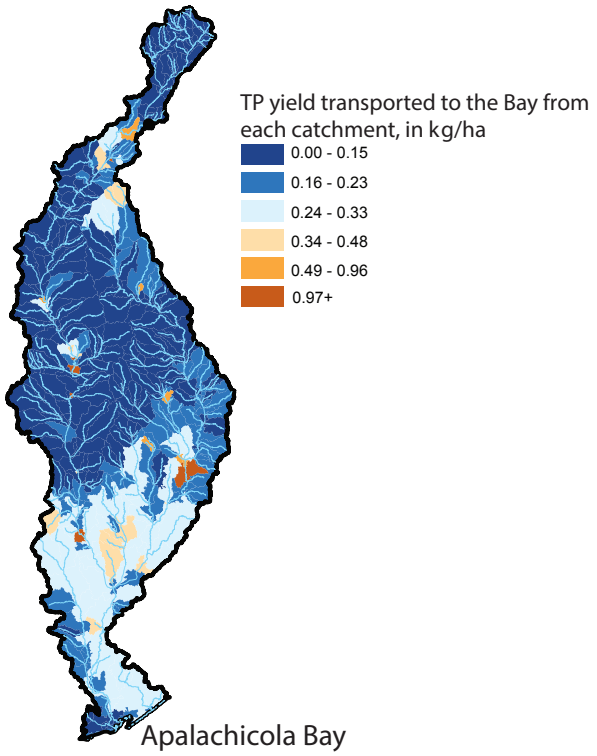
SPARROW Model Estimates of Phosphorus Delivered to Streams in the Apalachicola, Chattahoochee, Flint River Basins, and to Apalachicola Bay

Which areas contribute the largest amounts of total phosphorus annually:

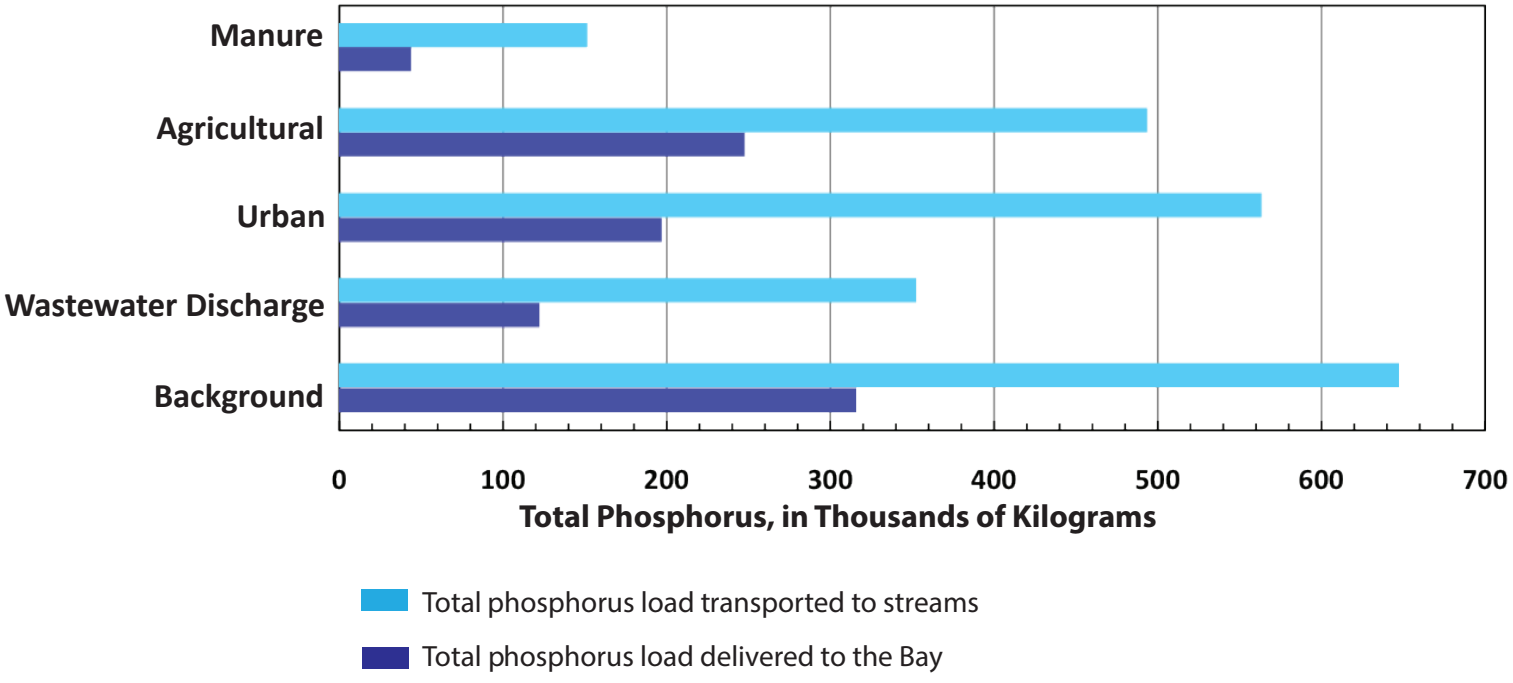
to local streams?



to Apalachicola Bay?



What sources contribute the largest amounts of total phosphorus annually to Apalachicola Bay?



(Note: Wastewater Discharge estimates include inputs to stream and shoreline reaches, not direct inputs to the Bay)

Garcia, A.M., Hoos, A.B., Terziotti, S., (2011), A regional modeling framework of phosphorus sources and transport in streams of the southeastern United States. Journal of the American Water Resources Association, 47: 991–1010. doi: 10.1111/j.1752-1688.2010.00517.x
