

SPARROW Model Estimates of Phosphorus Delivered to Streams in the Suwannee, Aucilla, St Marks, and Ochlockonee River Basins, and to the Suwannee River Estuary, Apalachee Bay, and adjacent coastal areas

Which areas contribute the largest amounts of total phosphorus annually:

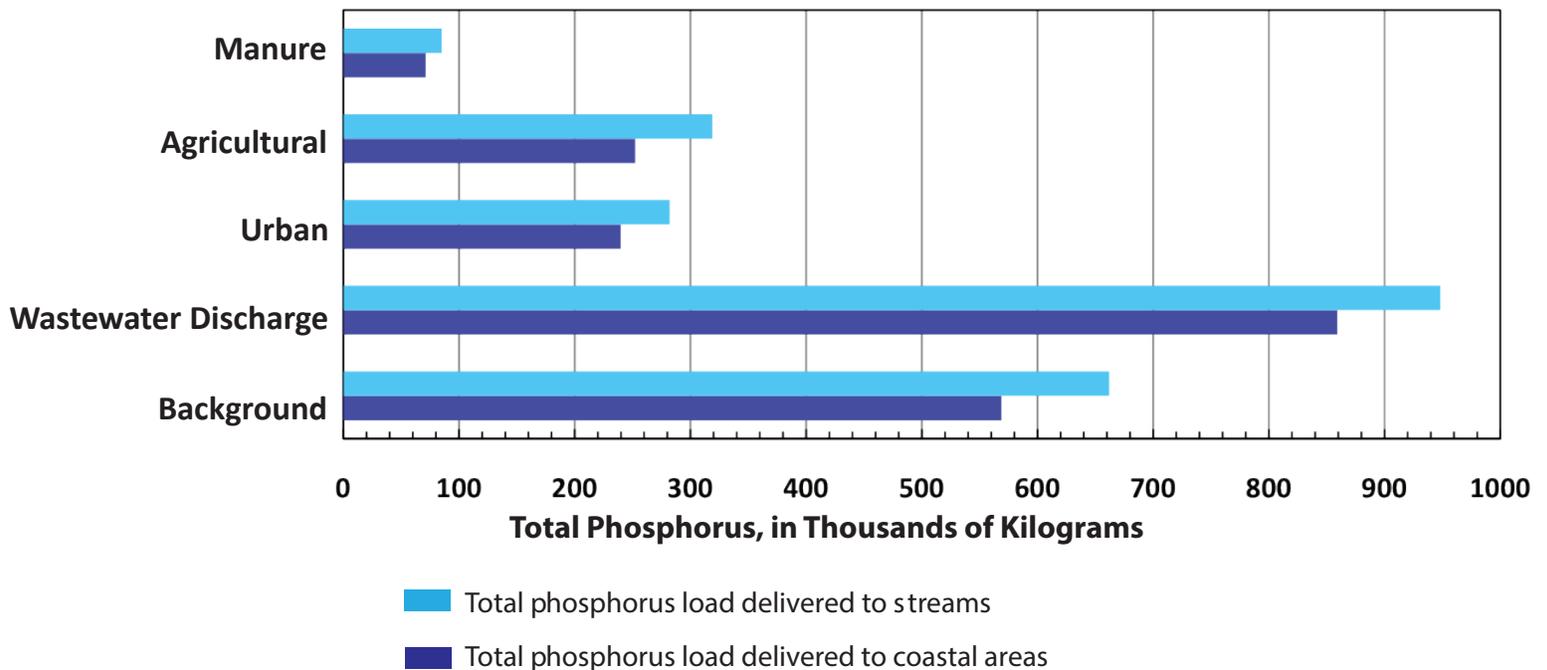

to local streams?

to the Suwannee River Estuary, Apalachee Bay and adjacent coastal areas?

What sources contribute the largest amounts of total phosphorus annually to the Suwannee River Estuary, Apalachee Bay, and adjacent coastal areas?

(Note: Wastewater Discharge estimates include inputs to stream and shoreline reaches, not direct inputs to coastal areas)
