

# CONTENTS

Abstract .....	1
Introduction .....	1
Purpose and Scope .....	2
Description of the Study Area .....	2
Data Collection and Analysis .....	2
Borehole-Radar Reflection Method .....	2
Data Processing .....	5
Data Analysis and Interpretation .....	5
Estimation of Reflector Length .....	6
Reflector Quality Scores: Reflector Continuity and Orientation Confidence .....	7
Results of Borehole-Radar Reflection Logging at the Project Shoal Area .....	9
Borehole HC-2 .....	9
Borehole HC-5 .....	9
Borehole HC-6 .....	12
Borehole HC-7 .....	14
Borehole HC-8 .....	14
Summary and Conclusions .....	18
References Cited .....	22

## FIGURES

1. Map showing the location of the study area, general topography, and logged boreholes at the Project Shoal Area, Churchill County, Nevada .....	3
2. Conceptual diagram showing the transmitter and receiver antenna arrangement for borehole-radar reflection logging and the typical reflection patterns from planar and a point reflectors .....	4
3. Diagram showing how the orientation of a receiving loop antenna with respect to an impinging transmitted electromagnetic wave affects the amplitude of the signal induced on the receiving antenna.....	5
4. Screen capture showing the use of RADINTER software to interactively interpret borehole radar reflection logs .....	6
5. Diagram showing the effect of reflector orientation on reflection imaging .....	8
6. Radar reflection logging in borehole HC-2, Project Shoal Area .....	10
7. Radar reflection logging in borehole HC-5, Project Shoal Area .....	11
8. Radar reflection logging in borehole HC-6, Project Shoal Area .....	13
9. Radar reflection logging in borehole HC-7, Project Shoal Area .....	15
10. Radar reflection logging in borehole HC-8, Project Shoal Area .....	17
11. Histogram showing the distribution of interpreted borehole-radar reflectors sorted by azimuth, Project Shoal Area .....	19
12. Histogram showing the distribution of interpreted borehole-radar reflectors sorted by dip, Project Shoal Area .....	19
13. Histogram showing the distribution of interpreted borehole-radar reflectors sorted by the continuity of the reflectors, Project Shoal Area .....	20
14. Histogram showing the distribution of interpreted borehole-radar reflectors sorted by orientation confidence, Project Shoal Area .....	20
15. Lower hemisphere equal-area stereo-net showing poles of all interpreted radar reflectors, weighted by reflector length and combined reflector quality, Project Shoal Area .....	21
