

SLEDS Requests and fixes

<u>Date</u>	<u>Request/Fix</u>	<u>Affected area</u>
05-06-03 05-09-03	Request by CVO Fix	SizeAnalysis: Loss on Ignition was not correctly loading all dishes. Problem addressed with SLEDS version 4.87
05-06-03 05-09-03	Request by CVO Fix	MainMenu: Error messages when going to different frames. Problem addressed with SLEDS version 4.87
05-06-03 05-21-03	Request by IA Fix	Reports: Would like to see sample remarks in the size distribution report. Problem addressed with SLEDS version 4.90
05-06-03 reports. 05-21-03	Request by IA Fix	Reports: Would like to see "Verticals" instead of "Bottle" for bed material in size Problem addressed with SLEDS version 4.90
05-06-03 05-12-03	Request by IA fix	Reports: Had trouble with "%VA" showing in size report, when no VA was run The database was cleaned up. A missing process id was entered for the problem sample.
05-06-03	Request by IA	DishReport: would like ability to select dishes based on date or filename
05-06-03	Request by IA	DishEdit: Would like an output report
05-06-03	Request by IA	Login: Instructions needed for state/project and process/profile relations and use.
05-14-03 05-14-03	Request by CA Fix	Error message going in Maintenance Problem addressed with SLEDS version 4.87
05-14-03 06-03-03	Request by CA Fix	Duplicate key error when trying to index tables (database needs cleaning) Renumbered one of two bottles from 1999 with the same samplette_id in the samplette table
05-14-03 05-27-03	Request by CA Fix	can't find command for sreport. It is Ok now
05-15-03 05-23-03	Request by CA Fix	SLEDS locking up during reports A missing report was reinstalled after its missing header file was downloaded
05-19-03 05-21-03	Request by CVO Fix	Would like to see sample remarks in the size distribution report. Problem addressed with SLEDS version 4.90
05-23-03 05-23-03 05-27-03	Request by CA Fix Fix	DBA unable to grant rights to users Advised that resetting Ingres might help. CA reports everything is working OK
05-27-03 05-28-03	Request by MO Fix	They are having trouble changing a sand sieve sample to a VA sample. Problem addressed with SLEDS version 4.91, which allows the choice of VA method choice in Login to override the method choice from SieveAnalysis (DishAssignment). Normally, the SieveAnalysis Method is the preferred method when changing which sieve method. SLEDS version 4.91 was installed and a new process was set up using the new gravel size profile that comes with SLEDS version 4.91
05-27-03	Request by CVO	The new Accounting report seems to be finding the same extra bottles for

different methods.
Problem addressed with SLEDs version 4.92, that selects extra bottles specifically by method.
