# TRANSFER PCFF 6 CONFIGURATION TO PCFF 7

Conventions used in this document:

Bold type indicates something you should type such as

### ftp hqwiftp.er.usgs.gov

Italics text indicate a computer prompt such as

• **Enter your password** click on the SYSTEM DSN tab . A node for NWISDCOLKA must be present! if the node doesn't exist perform the following steps..

<CR> indicates the carriage return key.

#### IMPORTANT - PCFF 6.1F must be installed on the system for the transfer to work!

#### Install PCFF7 as per the instructions found in PCFF7Install.doc

Locate the transfer setting program (xferPCFF\_setting.exe which is located in with the installed PCFF files) and run it **SEE NOTE FOR WINDOWS 7 USERS!**

Select the path to the databases and the lights will turn green.

Note: The default directory that the program starts with is the PCFF 6 install Dir and the PCFF 7 install dir. You probably won't have to change anything.

| PCFF6 to PCFF 7 IMPORT  |
|---|
| PCFF 6.1F Database:   |
| C:\Program Files\WRD\PCFF6\database                                     |
| PCFF 7 Database:  |
| C:\Users\fccrensh\Desktop\PCFF7 RUNS\PCFF7_beta_10062011\pcff7_db.accdb |
|   |
|   |

Once Both lights are lit – press the IMPORT button to start the import.

A progress window will display as the transfer occurs.
